

Living Things and Their Environment

Plants, Animals and Living Things

Lesson	Name	Page
1	Living and Non-living Things	9
2	The Vital Functions of Living Things	13
3	Differences between Plants and Animals	17
4	Plants	21
5	Classification of Plants	25
6	Animals	29
7	Animal Classification	33

Natural Resources

8	The Ecosystems	37
9	Natural Resources	41
10	The Urban and Rural Environment	45
11	Common Human Needs	49
12	Work and Activities of the Community	53

The Human Body and Health

The Senses and Health

13	Anatomy of the Human Body	55
14	Differences between Boys and Girl	59
15	The Senses	63
16	Taking Care of the Senses	67
17	Internal Organs	71
18	Locomotor System	73

Food and Health

19	Healthy Lifestyle Habits	77
20	Respiratory and Intestinal Diseases	81
21	Food Groups	85
22	Recommendations for a Good Diet	89

Earth and the Universe

The Days and The Seasons of the Year

23	The Earth	93
24	Living Things and the Cycle of Light	97
25	Seasons of the Year	101
26	Air and Wind	105

Imaginary Trips

27	The Universe and the Solar System	107
28	The Sun, the Moon and the Earth	111
29	Phases of the Moon	115
30	The Eclipses	119

Matter, Energy and Technology

The Materials and Their Uses

31	The Things That Surround Us	123
32	The Natural and Artificial Elements	127
33	Energy	129
34	Simple and Compound Machines	133

Water, a Vital Resource

35	Water Properties and States	137
36	The Origin of Drinking Water	141
37	The Importance of Water for Living Beings	145
38	Water Care and Protection	149

Experiments

Experiment 1	153
Experiment 2	155
Experiment 3	157
Experiment 4	159
