

## Living Things and Their Environment

### Plants, Animals and Living Things

Lesson	Name	Page
1	Living Things and Non-living Things	9
2	The Functions of Living Things	13
3	Relationships between Living Things	17
4	The Ecosystems	21
5	Biodiversity in Colombia	25

### Plants and Animals

6	Plants	29
7	The Reproduction of Plants	33
8	Animals	37
9	Domestic and Wild Animals	41
10	Habitat and Feeding of Animals	45
11	Animal Reproduction	49
12	The Life Cycle of Animals	53
13	Animals as a Natural Resource	55
14	Plants as a Natural Resource	59

## The Human Being and Health

### My Body

15	The Basic Human Needs	63
16	Human Reproduction	67
17	The Stages of Human Development	71
18	The Senses	73
19	The Locomotor System	77
20	The Digestive System	81
21	The Respiratory System	85
22	Diseases and Health	89

### Food Nutrition

23	Food Groups	93
24	Balanced Diet	97

25	Food	101
26	Environmental Health	105

## Earth and the Universe

### Terrestrial Landscape

27	The Layers and Landscape of the Earth	107
28	Changes Over Time	111

### The Moon, the Earth and the Sun

29	The Universe and the Solar System	115
30	The Moon and Its Phases	119
31	Earth's Movements	123

## Matter, Energy and Technology

### The Earth's Water

32	Matter	127
33	Water on Earth	129
34	Energy	133

### Technology

35	Simple and Compound Machines	137
36	The Nature of Waste	141
37	Transport	145
38	Technology Applied to Plants and Animals	149

### Experiments

Experiment 1	153
Experiment 2	155
Experiment 3	157
Experiment 4	159
