Adventure 1

Pucuy's mission **8**
Superpowers from previous grades 10
Challenge 11
Episode 1. Kitan's arrival **12**
Types of angles 13
Translations and turns of people or objects 15
Reference points 15
Cardinal points 16
Writing a survey 18
Ordinal numbers 19
Episode 2. Futura in numbers **20**
Thousands 20
Tens of thousands 21
Reading and writing five-digit numbers 23
Measuring length 24
Perimeter of flat figures 28
Episode 3. Renard's disappearance **29**
Collecting and organizing statistical information 29
Frequency table 30
Place value of the digits in a number 31
Composing and decomposing numbers 32
Rounding numbers 35
We learn from our mistakes 36
Powerful mind 38
Beat the challenge 39

Adventure 2

Futura City **40**
Superpowers from previous episodes 42
Challenge 43
Episode 1. On the streets of Futura **44**
Mode 44
Parallel and perpendicular lines 46
Episode 2. The High Council **48**
Number line 48
Order relations between five-digit numbers 50
Numbers before and after 52
Cartesian plane 54
Episode 3. Mr. Smog's traps **56**
Addition of five-digit numbers 57
Subtraction of five-digit numbers 59
Coins and bills 61
Episode 4. The *Intergalactic Baris* **63**
Regular polygons 64
Axis of symmetry 66
Properties of addition 67
Estimating sums and differences 68
Combined addition and subtraction operations 68
We learn from our mistakes 70
Powerful mind 72
Beat the challenge 73

Adventure 3

The journey through the forest **74**
Superpowers from previous episodes 76
Challenge 77
Episode 1. The maze in the forest **78**
Measuring the surface of flat figures 78
Relationship between addition and multiplication 81
Surface units 84
Multiplying by a one-digit number 86
Episode 2. Someone is following us **87**
Multiplying by a two-digit number 88
Measuring time and duration of events 92
Episode 3. Let's find out who the intruder is **93**
Equalities of addition and subtraction 94
Congruence 98
Episode 4. Chaos everywhere **99**
Double and triple 99
Similarity 102
We learn from our mistakes 104
Powerful mind 106
Beat the challenge 107

Adventure 4

The persecution **108**
Superpowers from previous episodes 110
Challenge 111
Episode 1. The capture of XR1 **112**
Round bodies 112
Cylinders and their representation 113
Cones and their representation 114
Polyhedrons 115
Episode 2. The clones **118**
Composed geometric solids 118
Frequency tables 121
Episode 3. The exchange **122**
Volume 122
Using cubes to measure volume 123
Units of volume 126
Exponentiation 127
We learn from our mistakes 130
Powerful mind 132
Beat the challenge 133

Adventure 5

The chaotic virus 134
Superpowers from previous episodes 136
Challenge 137
Episode 1. The Snark cure 138
Measuring capacity 138
Milliliter 139
Conservation of capacity 140
Equitable distributions 144
Division 144
Terms for division 146
Episode 2. A pirates' pact 147
Relationship between multiplication and division 148
Measuring mass 149
Multiplicative equalities 154
Episode 3. The heart of the island 156
Converting units of mass 157
Exact and inexact division 158
One-digit divisor 160
We learn from our mistakes 164
Powerful mind 166
Beat the challenge 167

Adventure 6

Mr. Smog's den 168
Superpowers from previous episodes 170
Challenge 171
Episode 1. Niadel the pirate 172
One half of a number and one half of a figure 172
Symmetrical figures 173
One third of a number and one third of a figure 175
One quarter of a number and one quarter of a figure 176
Episode 2. The mega-ants 177
Quantitative change 178
Rigid motions 179
Episode 3. The Volcanic Mountain Range 182
Additive patterns 182
Irregular figures 184
Episode 4. Kitan the king 186
One quarter of a kilogram and one half of a kilogram 187
One quarter of a meter and one half of a meter 188
One quarter of a liter and one half of a liter 189
Combined operations of multiplication and division 191
Hierarchy of operations 193
We learn from our mistakes 194
Powerful mind 196
Beat the challenge 197

Adventure 7

The great rescue 198
Superpowers from previous episodes 200
Challenge 201
Episode 1. The secret code 202
Part-whole fraction 202
Terms for fractions 203
Measuring angles 207
Episode 2. The big, steel door 212
Fraction as part of a set 212
Classifying triangles 215
Simple bar charts 219
Episode 3. Are the pirates asleep? 222
Homogeneous fractions 222
Order relations between homogeneous fractions 224
Horizontal pictographs 226
We learn from our mistakes 228
Powerful mind 230
Beat the challenge 231

Adventure 8

The battle against Mr. Smog 232
Superpowers from previous episodes 234
Challenge 235
Episode 1. The only solution 236
Addition of homogeneous fractions 236
Subtraction of homogeneous fractions 239
Circle and circumference 241
Episode 2. The great battle of Futura 244
Combined operations with homogeneous fractions 244
Very possible and not very possible events 246
Episode 3. And the race begins! 248
Additive equalities with homogeneous fractions 248
Comparing events 250
We learn from our mistakes 252
Powerful mind 254
Beat the challenge 255
